

We are a fully regulated law firm, providing growing businesses with senior in-house lawyers on a flexible basis.

We believe that every ambitious business should be able to benefit from an experienced general counsel which is why TLD provides legal services differently.

Key differentiators

Flexible

Our Part Time Legal Director service sees one of our team work with clients on a retainer basis, typically for between two and six days a month. Designed entirely around our clients' needs, this can be reviewed and flexed up or down.

Proactive

Each SME has one specific Client Legal Director assigned to them who works within their business and who can deal with 99% of their legal needs.

Business focussed

Our Client Legal Directors have all got considerable corporate experience and will always give honest, pragmatic advice with a commercial focus.

Better value

We are transparent with our fees and our costs are agreed in advance - our clients never get a bill from us that they have not expected.

Our Client Legal Directors form part of senior management teams saving significant amounts of directors' time in the process.

Ideal customer

We believe we can add the most value to businesses that:

- Are based in England or Wales
- Have an international element (are either run from abroad or have relationships abroad)
- Are growing
- Deal with a lot of commercial/compliance issues ("legal churn")

- Have a turnover of more than £5m, but typically not more than £75m
- Are not currently employing or using an in-house lawyer
- Are often spending more than £50K p.a. getting advice from a traditional law firm and not getting a great service
- Have a very busy CFO/CEO who is spending too much time dealing with legal matters

What we can help with

Our Client Legal Directors can deal with 99% of a business's legal work including:

Commercial issues

Contracts, T&Cs, IP, commercial property, intercompany agreements, finance agreements.

Employee issues

Employment contracts, staff handbook, policies, employee issues, consultancy/sub-contractor agreements.

Corporate issues

Directors' duties and compliance matters, shareholder agreements, EMI share option schemes, Review of Articles and changes in share classes, Co Sec matters, acquisitions/mergers, due diligence, solvency concerns.

Legal audit

Our legal audit assesses the state of a business's legal health. A basic legal audit of the three areas above costs £2K + VAT.
